

LARGE HORSEBOX

HB510XL, HB610

BRITAIN'S LEADING
TRAILER MANUFACTURER

HB510XL

HORSEBOX

The HB510XL offers the flexibility of carrying two horses up to 17.2 hh or up to four ponies. The HB510XL comes with a headroom of 2.3m and a locking groom's door as standard.

With its 14' internal length the HB510XL offers either a range of telescopic partitions, suitable for ponies*, or a single centre partition allowing two horses to face forward.

A comfortable and safe environment for the horse is created through ample sliding windows and roof vents, ensuring plenty of light and fresh air. The thick rubber matting on the floor helps to minimise travel fatigue on long journeys.

Whether you are a livery yard, trekking centre, riding school or private individual with a string of ponies, this trailer, with a maximum gross weight of 3500kg, makes an ideal workhorse.

Additional options available on the HB510XL include combined rear ramp and van doors for greater flexibility.

*Animals must not be carried adjacent to the groom's door under any circumstances. Please refer to the partition layouts for guidance.

Loading Guidelines

Horse/Pony Size	Number Per Trailer	Number of Partitions	Partition Configuration	Trailer Payload
12.2hh	4	5	Diagonal/Perpendicular	2110kg
13.2hh	3	4	Diagonal	2130kg

HB610

HORSEBOX

The HB610 represents our largest trailer and can carry two large horses up to 17.2 hh with room to spare or up to five ponies. The HB610 has a headroom of 2.3m and a locking groom's door fitted as standard.

As with the HB510XL, the HB610 has a maximum gross weight of 3500kg. However, by offering additional trailer width, the telescopic partition system allows up to five pony stalls.*

The wide front unload ramp, which comes as standard, makes this model unique and very useful for both horse and owner.† An additional benefit is the extra storage space available in the wind deflector, accessible from inside the trailer.

The sliding windows and roof vents provide a comfortable and safe environment for your horse, ensuring plenty of light and fresh air. Additional comfort is provided through thick rubber floor matting.

*Animals must not be carried adjacent to the groom's door under any circumstances. Please refer to the partition layouts for guidance.

†The HB610 front ramp provides a headroom of 1.9m (74") and may not be suitable for front unloading of horses over 16.2hh.

STD = Standard Option *Trailer fitted with 175/75R16 tyres as standard. 6.50R16 tyres are available as an option.

No lock. * For telescopic partition only.

Large Horsebox models are available in Silver, Black and Blue.

Please note that all Ifor Williams braked trailers and Unbraked Eurolight trailers will come as standard with a 13 pin towing electric plug. This is in order to comply with the requirement under ECWTA regulation changes to provide trailer reversing lights. If your vehicle only has a 7 pin towing socket then a convenient adaptor can be purchased to convert the trailer's 13 pin socket back to 7 pin.

NOW AVAILABLE, THE NEW EVENTA RANGE

An Ifor Williams Horsebox with living accommodation for the user and herringbone travel for the horse. See our separate brochure and price list.
